

# DRDP-K (2015)

For use with transitional kindergarten and kindergarten-aged children

California Department of Education  
Sacramento, 2015

The Desired Results Developmental Profile–Kindergarten© (DRDP–K (2015) ©) was developed by the California Department of Education with additional enhancements created in collaboration with the Illinois State Board of Education. The DRDP–K (2015) builds upon the progression for most measures of the DRDP (2015): A Developmental Continuum from Early Infancy to Kindergarten Entry©. Two divisions of the California Department of Education jointly developed the DRDP (2015): the Early Education and Support Division (EESD) and the Special Education Division (SED). Lead agencies that participated in the development of the instrument include the WestEd Center for Child and Family Studies, the Desired Results access Project, and the Berkeley Evaluation and Assessment Research (BEAR) Center at the University of California, Berkeley.

The complete DRDP–K (2015) instrument is available on the CDE Web site at [www.cde.ca.gov/sp/cd/ci/drdpforms.asp](http://www.cde.ca.gov/sp/cd/ci/drdpforms.asp) and on the Desired Results Developmental Profile – Kindergarten Web site at [www.drdpk.org](http://www.drdpk.org).

# Introduction to the DRDP-K (2015)

Welcome to the Desired Results Developmental Profile-Kindergarten (2015: A Developmental Continuum for Kindergarten© (DRDP-K (2015)©). The DRDP-K (2015) is an assessment instrument developed by the California Department of Education designed for teachers to observe, document and reflect on the learning and development of all children enrolled in transitional kindergarten and kindergarten classes. The DRDP-K (2015) serves a number of purposes:

- Assesses kindergarten readiness of individual children to identify where a child may require additional instructional supports

## Key Features of the DRDP-K (2015):

- The DRDP-K (2015) is administered through observation in natural settings, through teacher observations, family observations, or examples of children's work that includes ongoing documentation of child's knowledge, skills and behavior.
- The DRDP-K (2015) expands on and replaces the DRDP- School Readiness (2012) (DRDP-SR (2012)) assessment instrument.
- The DRDP-K (2015) represents a full continuum assessment instrument for all children in Transitional Kindergarten and Kindergarten classes. The instrument is under study so that it can be used as an appropriate measure of progress for all children with and without Individualized Education Programs (IEPs).
- The DRDP-K (2015) is aligned with the California Preschool Learning Foundations and the Common Core Standards.
- The DRDP-K (2015) takes into consideration the specific cultural and linguistic characteristics of California's diverse population of young children, with specific consideration for children who are dual language learners (see section below).
- The DRDP-K (2015) was developed with the goal of ensuring that all children have the opportunity to demonstrate their knowledge and skills. To enable access to the assessment for diverse populations, the principles of Universal Design were followed.

- Assists in curriculum planning
- Assess first grade readiness of individual children
- Demonstrates positive child outcomes

The DRDP-K (2015) is based on the previous DRDP instruments. It includes refinements made over the past several years and new elements that are essential to quality early childhood education. It aligns with the California Department of Education's Preschool Learning Foundations and the Common Core Standards. Key features of the DRDP-K (2015) are described below.

This Guide will assist teachers and administrators to:

- Observe, document, and reflect upon children's development
- Use the DRDP-K (2015) to plan curriculum for individual children and groups of children and to enhance classroom practices
- Share information about children's progress in learning and development domains with families

## Information about Selected Key Features

Three of these key features: (1) consideration of children who are dual language learners, (2) universal design, and (3) a detailed description of the developmental domains that make up the instrument, are described in more detail to help assessors better understand and rate the measures of the DRDP-K (2015).

## Dual Language Learners and the DRDP-K (2015)

Dual language learners are children learning two or more languages at the same time, as well as those learning a second language while continuing to develop their first (or home) language. A child's experience with one or more languages is an asset to build on in the early childhood setting.

It is critical to consider the child's communication in all the languages that he or she is learning to have an accurate picture of a child's knowledge and skills. Young children, including children with disabilities, can successfully learn two or more languages. Learning two or more languages has linguistic, social, cognitive, academic, and cultural benefits. The path to learning one language shares many similarities with the path to learning two or more languages.

There are also differences that must be taken into consideration when assessing young children who are dual language learners. Children may have vocabulary for concepts in one language and vocabulary for other concepts in another language; so it is important to assess children in all of the languages he or she understands and uses.

The DRDP-K (2015) addresses cultural and linguistic responsiveness in three primary ways:

1. Teachers observe and document children's behavior in both the home/first language and English to obtain a more accurate profile of the children's knowledge and skills across developmental domains

2. Teachers rate children's progress on two language development domains. The Language and Literacy Development (LLD) domain assesses all children's progress in developing foundational language and literacy skills. The English-Language Development (ELD) domain assesses current knowledge and skills and progress in learning to communicate in English.
3. Teachers in a Spanish-English bilingual education program (e.g., Spanish immersion, two-way immersion, developmental bilingual, transitional bilingual) can rate children's progress on an additional language and literacy development domain that assesses progress in learning to communicate in Spanish: Language and Literacy Development in Spanish (SPAN). Note: This is a supplemental domain of the DRDP-K (2015).

## Universal Design and the DRDP-K (2015)

In the context of assessment, "Universal Design" refers to the development of assessments that are appropriate for all children to the greatest extent possible. Universal Design allows children the opportunity to demonstrate their knowledge and skills in a variety of ways. All young children are entitled access to, and meaningful participation in age-appropriate, individual-appropriate and culturally-appropriate early childhood curricula and assessments. Teachers and service providers support children's access and participation by identifying and providing learning opportunities, materials, and teaching strategies in flexible and individualized ways and through a variety of learning modalities. DRDP-K (2015) assessors apply universal design when they carefully consider the various ways young children can demonstrate knowledge or skills that reflect mastery of a developmental level.

## The Eleven Domains of the DRDP-K (2015)

The DRDP-K (2015) is made up of 11 domains, including one supplemental domain. The focus of each domain is on the acquisition of knowledge, skills, or behaviors that reflect each domain's developmental constructs. Because there are multiple measures for each domain, a completed DRDP-K (2015) instrument provides enough information to support assessment along a developmental continuum. A child's learning and development across domains provides the child's overall learning and developmental profile.

### Approaches to Learning–Self-Regulation (ATL-REG)

The Approaches to Learning–Self-Regulation (ATL-REG) domain assesses two interrelated areas that are recognized as important for children's school readiness and success. Approaches to learning and self-regulation have been combined into one assessment domain because of the strong connections between these two areas of development. The approaches to learning skills and behaviors include engagement and persistence and curiosity and initiative. The self-regulation skills include self-control of feelings and behavior and shared use of space and materials.

### Social and Emotional Development (SED)

The Social and Emotional Development (SED) domain assesses children's developing abilities to understand and interact with others and to form positive relationships with

nurturing adults and their peers. The knowledge or skill areas in this domain include identity of self in relation to others, social and emotional understanding, relationships and social interactions with familiar adults, relationships and social interactions with peers, and symbolic and sociodramatic play.

### Language and Literacy Development (LLD)

The Language and Literacy Development (LLD) domain assesses the progress of all children in developing foundational language and literacy skills. These skills can be demonstrated in any language and in any mode of communication. Language and literacy skills in a child's first language form the foundation for learning English. Therefore, dual language learners may demonstrate knowledge and skills in their home language, in English, or in both languages. LLD measures should be completed for all infants, toddlers, and preschool-age children, including those who are dual language learners. *The LLD measures should be completed for all children, including those who are dual language learners.*

### English-Language Development (ELD)

The English-Language Development (ELD) domain assesses the progress of children who are dual language learners' in learning to communicate in English. The developmental progression described in the four ELD measures is related to the child's experiences with English, not the child's age. Keep in mind that children acquire English in different ways and at different rates. Factors that affect English acquisition include degree of exposure to English, level of support provided in their home/first language, and individual differences such as age of exposure to English or the structure of the child's home/first language. *The ELD measures should only be completed for children whose home/first language is other than English.*

### Cognition, Including Math and Science (COG)

The Cognition: Math (COG: MATH) and Cognition: Science (COG: SCI) domains focus on observation, exploration of people and objects, and investigation of objects and concepts. The COG: MATH domain includes the following knowledge or skill areas: classification, number sense of quantity, number sense of math operations, measurement, patterning, and shapes. The COG: SCI domain includes the following knowledge or skill areas: cause and effect, inquiry through observation and investigation, documentation and communication of inquiry, and knowledge of the natural world.

### Physical Development (PD) and Health (HLTH)

The Physical Development (PD) and Health (HLTH) domains assess motor development and the development of routines related to personal care, safety, and nutrition. The PD domain includes the following knowledge or skill areas: perceptual-motor skills and movement concepts, gross locomotor movement skills, gross motor manipulative skills, and fine motor manipulative skills. The HLTH domain includes the following knowledge or skills areas: active physical play, nutrition, safety, personal care routines, and knowledge of wellness.

### History-Social Science (HSS)

The History–Social Science (HSS) domain focuses on learning about the expectations of social situations, how to participate within a group, and the relationship between people and the environment in which they live. The knowledge or skill areas in this domain include

sense of time, sense of place, ecology, conflict negotiation, and responsible conduct.

## Visual and Performing Arts (VPA)

The Visual and Performing Arts (VPA) domain focuses on awareness and engagement in four areas of artistic expression. The knowledge or skill areas in this domain include visual art, music, drama, and dance.

## Supplemental Domain of the DRDP-K - Language and Literacy in Spanish (SPAN)

The Language and Literacy Development in Spanish (SPAN) domain is a supplemental domain. The SPAN domain is for use in a bilingual program (e.g. Spanish immersion, two-way immersion, developmental bilingual, transitional bilingual). This domain assesses children's progress in learning to communicate in Spanish. The developmental progression described in the four SPAN measures is related to the child's experiences with Spanish as part of the kindergarten curriculum, not the child's age. Keep in mind that various factors affect a child's acquisition of Spanish, including degree of exposure to Spanish and individual differences such as age of exposure to English or the structure of the child's home/first language.

## About the Measures of the DRDP-K (2015)

The number of levels in a measure varies depending on the competencies appropriate for that measure's developmental continuum. The levels are organized under two categories that reflect a developmental continuum for the transitional kindergarten and kindergarten year. All but two domains, ELD and SPAN, include six developmental levels. ATL-REG, SED, LLD, COG: MATH, COG: SCI, PD, HLTH, HSS and VPA include the following developmental levels:

- **Building (Earlier, Middle, Later):** Knowledge, skills, or behaviors that demonstrate growing understanding of how people and objects relate to one another, how to investigate ideas, and how things work. Children use language to express thoughts and feelings, to learn specific early literacy and numeracy skills, and to increasingly participate in small-group interactions and cooperative activities with others.
- **Integrating (Earlier, Middle, Later):** Knowledge, skills, or behaviors that demonstrate the increasing ability to connect and combine strategies in order to express, interpret, and explain complex thoughts and feelings, solve multi-step problems through systematic investigation and application of abstract ideas, and participate in a wide range of activities that involve social-emotional, self-regulatory, cognitive, linguistic, and physical skills. Children build their capacity to engage in mutually supportive relationships and interactions.

The developmental levels for the ELD and SPAN domains are different from the format described above. The levels in the ELD domain represent the developmental progression for the acquisition of English as a second language. The levels in the SPAN domain represent the developmental progression for the acquisition of Spanish in the context of a kindergarten classroom where the curriculum provides opportunities for learning and development of Spanish.

## Definitions of Terms in the Navigation Maps

**Developmental Domain:** A crucial area of learning and development for children.

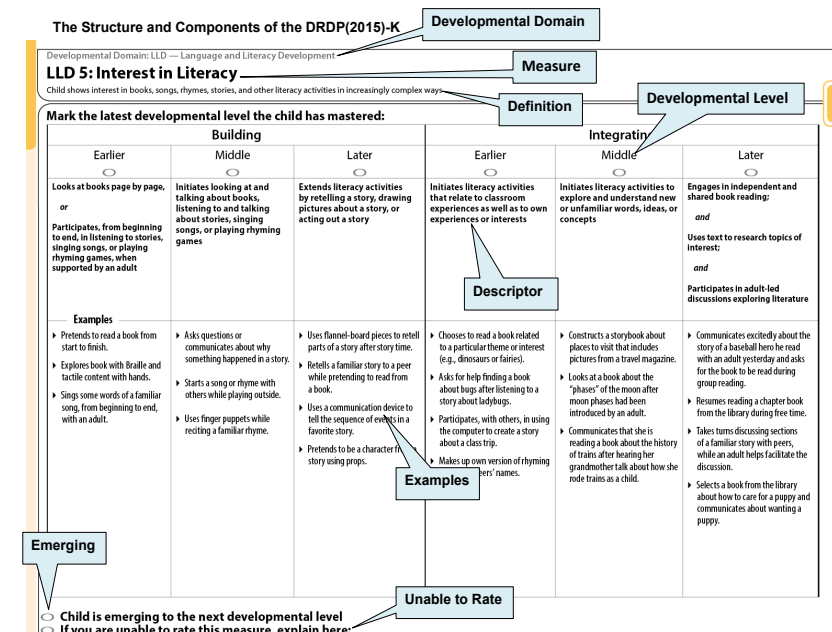

**Measure:** The developmental continuum along which a child's observed behavior is assessed. Measures are the individual assessment items in the DRDP-K.

**Definition:** Specifies the aspects of development to be observed.

**Developmental Level:** A point along a developmental progression for a particular measure that ranges from earlier to later levels of development.

**Descriptor:** A description that defines the skills or behaviors that would be observed for a child at that developmental level.

**Example:** Specific skills or behaviors you might see that would demonstrate that a child has reached mastery of a particular developmental level. Note that the examples provided in the DRDP-K are not the only way a child can demonstrate mastery of a developmental level.

## The 3 Steps to Completing the DRDP-K (2015)

### ➡ Step 1: Observation and Documentation

The DRDP-K (2015) focuses on the child's, knowledge, skills, or behaviors. To capture a child's behavior, the DRDP-K (2015) incorporates observation in natural settings.

Observations should occur over time, in typical settings:

- In the child's typical program or settings such as transitional kindergarten or kindergarten classrooms
- As the child interacts in familiar environments and routines with people he or she knows; and

As the child engages in typical classroom typical activities and routines.

Be sure to prepare and plan for observation and documentation.

#### Tips for Documenting Children's Development

- Consider ways to document children's knowledge, skills, or behavior throughout the day.
- Use a variety of documenting techniques. Documentation may include anecdotal notes, photographs, audio or video documentation, and work samples.
- Label each piece of evidence with the date and the child's name.
- Set aside time on a regular basis to organize documentation records and other forms of evidence.
- Consider using portfolios to keep documentation organized. Store portfolios in a secure place and accessible place.
- Use the results of other assessments of children's learning and development to help complete DRDP-K (2015).

#### The following materials may be helpful for observing and documenting:

- Sticky notes
- Pre-printed labels with child's name
- Charts
- Checklists or worksheets
- Clipboard, paper, pens, and pencils
- Photo/video camera
- Voice recorder

While observing and collecting documentation, remember that words, phrases, and sentences can be communicated and understood in a variety of ways, including spoken in the child's home/first language, signed, and through other communication modes

(e.g., communication device). The teacher's direct observations of a child are the primary method used to inform ratings. The assessor should also use other sources of evidence to capture a more complete picture of a child's knowledge and skills, or behavior. Other sources of evidence include the following:

**Observations by others** – including teachers, family members/caregivers, and other service providers or caregivers. Observations made by others are obtained by the assessor through interviews or conversations with others.

Other documentation – including samples of children's work, photographs, and video/ audio recordings of children's communication and behavior

### The Important Role of Families in the Documentation Process

Family members have repeated opportunities to observe their child's activities and interactions over time and in a range of situations. Their perspectives, combined with teachers' and service providers' observations, help assessors arrive at a more complete and reliable picture of a child's typical behaviors across settings. Inviting family members to share observations of their child's development and behavior is recommended practice for the DRDP-K (2015).

The opportunity to observe a child's level of mastery is enhanced when the child is interacting with a familiar adult. Because of this, it is helpful to observe children interacting with family members. These observations can inform assessment decisions for all domains. They are particularly important for the SED and LLD domains given social interaction and communication skills are learned through repeated interactions with familiar adults.

### Observation and Documentation for Young Dual Language Learners

Dual language learners may demonstrate knowledge and skills in their home/first language, in English, or in both languages. They may also code-switch, which is using more than one language within a conversation. Therefore, communication in all languages the child uses should be considered when collecting documentation and completing the measures in all domains.

The teacher who is conducting observations and collecting documentation should speak the child's home/first language. If not, the adult should receive assistance from another adult, who does speak the child's home/first language. This may be an instructional assistant, teacher, director, parent, or other adult who knows the child.

Code switching is a strategy used by children learning more than one language:

### **Dual Language Learners' Use of Code Switching**

- Code switching is the use of multiple languages within a single conversation. It is a typical feature of learning two or more languages.
- Children code switch to playfully experiment with the two languages and to serve their own social and communication goals. For example, children may code switch to emphasize or elaborate a point.
- Children might code switch when speaking with one person, or may use one language exclusively with one person and another language with another person.
- When children mix their two languages they use the grammatical rules of each language. For example, "I want leche" ["I want milk" in English] is an example of inserting a Spanish noun into a grammatically correct English sentence. "¿And then el niño se cayó!" ["And then the boy fell down" in English] is an example of using English linking words within a Spanish sentence.

## **The Role of Special Educator**

The Individuals with Disabilities Education Act (IDEA) requires that students with disabilities participate in district-wide assessments. If you serve a transitional kindergarten or kindergarten student with an IEP in a district in which the DRDP-K is being implemented, you are to support that student's participation in this assessment. This includes ensuring that accommodations are in place such as the system of adaptations described below, as well as working with the child's teacher to be sure observations of children with IEPs are accurate and complete. The special educator should communicate with the kindergarten teacher to plan how to conduct the assessment collaboratively for children with IEPs.

## **Using Adaptations with Children with Individualized Education Plans (IEPs)**

Adaptations are changes in the environment or differences in observed behavior that allow children with IEPs to demonstrate their knowledge and skills in typical environments. Seven broad categories of adaptations have been identified for children with IEPs for the DRDP (2015).

- The adaptations listed in the table below have been developed so that the assessment will more accurately measure a child's abilities rather than the impact of a child's disability (a more detailed description of the adaptations appears in Appendix D). Adaptations must be in place for the child during the normal course of the day, and they should also be in place during observations for the DRDP (2015). Everyone working with the child should be informed of any adaptations the child uses.
- New adaptations must not be introduced solely for the purpose of conducting the DRDP (2015) assessment.
- Consideration of adaptations should be made on a regular basis from early infancy and as the child develops and grows.

## **Seven Categories of Adaptations**

### **Augmentative or Alternative Communication System**

Methods of communication other than speech that allow a child who is unable to use spoken language to communicate with others.

### **Alternative Mode for Written Language**

Methods of reading or writing used by a child who cannot see well enough to read or write or cannot hold and manipulate a writing utensil (e.g., pencil, pen) well enough to produce written symbols.

### **Visual Support**

Adjustments to the environment that provide additional information to a child who has limited or reduced visual input.

### **Assistive Equipment or Device**

Tools that make it possible or easier for a child to perform a task.

### **Functional Positioning**

Strategic positioning and postural support that allow a child to have increased control of his body.

### **Sensory Support**

Increasing or decreasing sensory input to facilitate a child's attention and interaction in the environment.

### **Alternative Response Mode**

Recognition that a child might demonstrate mastery of a skill in a unique way that differs from the child's typically developing peers.

## ➡ Step 2: Rating the Measures

### Determining the Child's Latest Level of Mastery

For each of the measures, determine the latest developmental level the child has mastered, and mark it appropriately. All ratings will be entered into DRDPtech®, the DRDP–K (2015) online system. Ratings may be entered directly into DRDPtech or recorded on the DRDP–K (2015) Rating Record.

### The Descriptors and Examples

Consider the descriptors and then the examples to determine which developmental level is most consistent with your observations and other documentation of the child's typical behavior. A child may demonstrate behaviors at more than one developmental level. Choose the level that most closely represents the knowledge, skills, or behaviors the child is demonstrating most consistently.

#### Descriptors:

The descriptors define the knowledge, skills, or behaviors expected at each level along the developmental continuum of the measure (see Navigation Map). Each descriptor is illustrated by several examples of behaviors that are consistent with that developmental level.

Most of the descriptors define discrete knowledge, skills, or behaviors. However, some of the descriptors include more than one behavior or skill, separated by "or" or a semicolon (;).

If the descriptor says "or":

- The child only needs to demonstrate the knowledge, skills, or behavior in one of the listed ways to demonstrate mastery for the developmental level. Either part of the descriptor may be observed to rate mastery at that level.
- An example is the level descriptor for Building Earlier in the LLD 5: Interest in Literacy measure: Looks at books page by page or

Participates, from beginning to end, in listening to stories, singing songs, or playing rhyming games, when supported by an adult

If the child EITHER looks at books page by page briefly OR participates, from beginning to end, in listening to stories, singing songs, or playing rhyming games, when supported by an adult, mastery can be rated at this level.

If a descriptor includes a semi-colon (;) followed by "and":

- The child must demonstrate all the knowledge, skills or behaviors listed to rate the level as mastered, but not necessarily during the same observation within a DRDP rating period.
- An example is the level descriptor for Integrating Middle in the LLD8: Phonological Awareness measure: Matches initial and final sounds of words; and
- Segments and blends initial and final phonemes of words

### What is Mastery?

A developmental level is mastered if the child demonstrates the knowledge, skills, and behaviors defined at that level:

- ➡ Consistently over time
- ➡ In different situations or settings

Important notes about mastery:

- Children may demonstrate mastery of knowledge and skills through a variety of communication modes, languages, and behaviors.
- Many of the behaviors that you observe in determining a child's mastery level may not appear on the list of examples, although they are consistent with the descriptor.

### Review and Reflect:

- It is a good idea to have a system to keep track of documentation to ensure a complete picture of the child. Halfway through the documentation period, check the measures of the DRDP–K (2015) instrument for which you have documentation. Plan to observe the child at times when the remaining measures can be documented.
- During the rating period, review the observations and documentation of the child's development collected (portfolio with work samples, anecdotal comments, photographs, video, other learning and development assessments, etc.). Reflect on what the evidence reveals about the child's development across the domains and measures of the DRDP–K (2015) instrument.
- If the documentation does not provide a clear picture of the child's development in one or more areas, determine how to gather additional evidence. Plan other opportunities to observe the child's behavior. Speak again with family members, staff, and others who know this child to ensure that you have the most complete and accurate picture of the child's skills and abilities.

To be rated as mastered at this level, the child must BOTH match initial and final sounds of words AND segment and blend initial and final phonemes of words, although the teacher does not have to observe both behaviors during the same observation within a rating period.

#### Examples:

Keep in mind these important points about examples:

- The examples are not a checklist of what the child must demonstrate to be rated at mastery of the knowledge, skills, or behaviors that reflect a developmental level.
- An example is one of many possible ways a child might demonstrate mastery of a developmental level. Teachers will identify other examples as they conduct their observations.
- Mastery is determined over time and across situations or settings.
- A child may not demonstrate any of the specific examples provided for a developmental level, but may demonstrate mastery in other ways that are consistent with the intent of the descriptor.
- Children demonstrate mastery in diverse and sometimes unique ways.

## Additional Rating Options

#### Emerging to the Next Developmental Level:

If your observations indicate that the child has demonstrated mastery for a developmental level and is also beginning to demonstrate knowledge, skills, or behaviors described for the next level (although not yet consistently across situations or settings), the child may be emerging to the next level.

#### To indicate emerging:

- First, mark the developmental level the child has mastered.
- Then, mark “emerging” if the child also demonstrates behaviors described for the next developmental level.

#### Unable to Rate:

In the rare instance that you are unable to rate a specific measure provide the reason(s) as to why in DRDPtech or in the designated column if you are submitting ratings on a rating record.

#### Notes about Emerging:

- Do not mark emerging if the child has mastered the last level on a measure.
- Marking that the child is emerging to the next level does not affect the rating of mastery for the measure.

## ➔ Step 3: Finalize the Assessment

- To finalize, simply review the assessment to make sure that:
- Teachers and special educators enter ratings for all required measures of DRDP–K (2015) into DRDPtech or on the DRDP–K (2015) Rating Record. DRDPtech will provide prompts to complete any missing information.
- The Information Page is complete and up-to-date.

## Using Information from the DRDP-K (2015)

When used on an ongoing basis, the DRDP–K (2015) instrument will provide teaching staff with information that will benefit children, families, and schools.

Information from the DRDP–K (2015) can be reviewed and analyzed at the level of the individual child. In addition, the DRDP–K (2015) results can be summarized to provide information on groups of children. Teachers, special educators, and other staff will review, share, and analyze the DRDP–K (2015) assessment results for the individual students in their classroom and use the information for curriculum planning and development.

Because the DRDP–K (2015) provides opportunities to observe and document children’s knowledge, skills, or behaviors systematically across many areas of development, the information it yields can be used to identify areas of development that may need to be addressed and supported, either for a specific child or group of children. Teaching staff may also find it useful to interpret a child’s ratings on individual DRDP–K (2015) measures. DRDP results may indicate that the child might benefit from additional support in one or more specific areas of development, such as in developing self-control of feelings and behavior or with number sense of quantity. This information, together with other sources of information about the child’s development, can be used to plan curriculum tailored to the interests and needs of all children.

## For Classroom or School Level

- Teachers or other staff may summarize DRDP–K (2015) information using DRDPtech.
- DRDP–K (2015) data collected within a classroom or for a school site may indicate a need to change or add activities in a specific area covered by the DRDP–K (2015), such as mathematics or language and literacy development.
- Thus, results from the DRDP–K (2015) can assist teaching staff in supporting the learning and development of individual children and groups of children, and can inform overall school improvement efforts.

## Communicating with Families about Children's Progress

It is vital that schools work in partnership with families to foster children's learning and development. This requires ongoing and meaningful two-way communication. Family members should be involved in the DRDP assessment process from the beginning. Teachers who observe and document the child's behaviors and rate the DRDP–K (2015) measures are encouraged to seek input from families. Input from family members about the child's knowledge, skills, or behaviors can enrich and complement evidence collected by teachers and other staff.

The Child Developmental Profile that summarizes results from the DRDP–K (2015) assessments can be found at DRDPtech. Teachers, including special educators, and family members can use this summary as a tool for sharing information about the child's learning and development during parent-teacher conferences. Teachers should review the Child Developmental Profile with the family, and may be used to generate ideas about ways in which the family and the school can work together to support the child's development both at home and in the school setting.

Date assessment completed (mm/dd/yyyy): \_\_\_\_\_

### Child's Information

1. Child's name:
  - 1a. Legal First Name: \_\_\_\_\_
  - 1b. Legal Last Name: \_\_\_\_\_
2. Agency Identifier or Statewide Student Identifier (10-digit SSID)  
\_\_\_\_\_
3. Child's classroom: \_\_\_\_\_
4. Birth date (mm/dd/yyyy): \_\_\_\_\_
5. Gender: ☐ male ☐ female
6. Initial date of enrollment (mm/dd/yyyy):  
\_\_\_\_\_
7. Ethnicity:
  - 7a. What is this child's ethnicity? Check one.
 

☐ Hispanic or Latino
☐ Not Hispanic or Latino
  - 7b. What is this child's race? Mark one or more races to indicate what this child considers himself/herself to be.
 

☐ Asian Indian  
☐ Black or African American  
☐ Cambodian  
☐ Chinese  
☐ Filipino  
☐ Guamanian  
☐ Hawaiian  
☐ Hmong  
☐ Japanese  
☐ Intentionally left blank

☐ Korean  
☐ Laotian  
☐ Native American  
☐ Other Asian  
☐ Other Pacific Islander  
☐ Samoan  
☐ Tahitian  
☐ Vietnamese  
☐ White
8. Does this child have an Individualized Education Program (IEP)?  
☐ Yes ☐ No ☐ Don't know

### Assessor Information

9. Agency/site: \_\_\_\_\_
10. Person(s) completing the assessment:
 

Name/role: \_\_\_\_\_  
 Name/role: \_\_\_\_\_  
 Choose role from list below:
 
  - Primary Teacher
  - Special Education Teacher
  - Other (please specify) \_\_\_\_\_
11. Did another adult assist you with assessing this child?
 

☐ Yes (role/relation): \_\_\_\_\_  
☐ No

### Child's Language Information

12. Child's home language(s): \_\_\_\_\_  
 Is a language other than English spoken in the child's home?  
☐ Yes ☐ No  
  
 If yes a language other than English is spoken in the child's home, the ELD measures must be completed.
13. What language(s) do you speak with this child?
14. Did someone who understands and uses the child's home language assist you with completing the observation?
 

☐ Yes (role/relation): \_\_\_\_\_  
☐ No  
☐ Not applicable - I understand and use the child's home language.

## Rating Record

Child: \_\_\_\_\_ Date of assessment: \_\_\_\_\_ Assessor: \_\_\_\_\_

Classroom: \_\_\_\_\_ District/Agency: \_\_\_\_\_ School or Site: \_\_\_\_\_

Note: The Rating Record is meant to be used together with the DRDP(2015)-K Instrument for keeping track of each child's developmental levels as you complete the study.

Instructions: Mark the developmental level the child has mastered for each Measure. Check EM (emerging) if the child is "emerging" to the next level (optional). In the rare circumstance that you are unable to rate a particular Measure, check UR (unable to rate) and circle the reason why you are unable to rate this Measure (absence or other).

	 <b>DOMAIN: Approaches to Learning--Self-Regulation (ATL-REG)</b>	Building			Integrating			Emergent	In the rare circumstance that you are unable to rate a measure:

**ATL-REG 1: Curiosity and Initiative in Learning**

Child explores the environment in increasingly focused ways to learn about people, things, materials, and events

**Mark the latest developmental level the child has mastered:**

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Explores through simple observations, or manipulations, or asking simple questions</b>	<b>Explores by engaging in specific observations, manipulations, or by asking specific questions</b>	<b>Carries out simple investigations using familiar strategies, tools, or sources of information</b>	<b>Carries out multi-step investigations, using a variety of strategies, tools, or sources of information</b>	<b>Carries out experiments with things or materials, by systematically modifying actions and reacting to the results</b>	<b>Finds out about things, people, or events by comparing multiple sources of information, including experiments, books and pictures, and asking questions</b>
<b>Possible Examples</b>					
<ul style="list-style-type: none"> <li>▶ Moves around a fish bowl to continue watching a fish as it swims around objects.</li> <li>▶ Drops a marble in a maze and follows its path as it rolls to the bottom.</li> <li>▶ Asks, "What's that doing?" when seeing the compact disc player in the listening center.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Puts a dry sponge in water and then squeezes it to see what happens.</li> <li>▶ Observes a snail and asks, "Why do snails have shells?"</li> <li>▶ Compares color or shape of leaves gathered on a nature walk.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Uses a magnetic wand to figure out which objects on a table it will lift up.</li> <li>▶ Uses a magnifying glass to observe a caterpillar closely, and describes its pattern of colors and number of legs.</li> <li>▶ Changes the compact disc to listen to a new story.</li> <li>▶ Uses a communication device to learn about the new pet guinea pig.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Examines images from informational books or a computer to learn about the habitats of different animals.</li> <li>▶ Looks through a prism held up to the light, directing its motion until a rainbow of colors appears on the wall.</li> <li>▶ Sets up a project, with an adult, that involves investigating the growth of lima bean plants with different amounts of water, and documents their growth.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Makes a wooden block ramp steeper and steeper and runs a small metal car down it each time to find out what happens.</li> <li>▶ Adds blue paint to a saucer of yellow paint a few drops at a time, stirring after each addition, to see how the green color changes.</li> <li>▶ Kicks a ball into a play soccer goal repeatedly, placing the ball farther away (and at different angles) before each kick.</li> <li>▶ Watches a cup of snow to see how long it takes to melt.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, "But that's different from what my daddy told me," and asks why, after hearing an adult's response to a question about why plants are green.</li> <li>▶ Sets up a ramp to experiment with whether it is true that objects roll down steeper ramps more quickly, after a peer shows that objects roll down steeper ramps more quickly than shallow ramps.</li> <li>▶ Gathers information from books and the internet to create an environment for the classroom butterflies.</li> <li>▶ Creates a model of a bridge, consulting pictures of bridges, talking with an adult and experimenting with creating a bridge across a divide.</li> </ul>

- Child is emerging to the next developmental level  
 ○ Unable to rate this measure due to extended absence

**ALT-REG 2: Self-Control of Feelings and Behavior**

Child increasingly develops strategies for regulating feelings and behavior, becoming less reliant on adult guidance over time

**Mark the latest developmental level the child has mastered:**

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Demonstrates capacity to regulate emotional or behavioral reactions in some moderately stressful situations, occasionally needing adult support</b> <b>Possible Examples</b> <ul style="list-style-type: none"> <li>▶ Waits to ride a favorite tricycle without trying to take it from another child.</li> <li>▶ Pauses and sighs after tower falls down, and then starts to rebuild it when an adult asks, "Do you want to make it again?"</li> <li>▶ Frowns, but goes to a different play center when an adult communicates that there are too many children at this play center.</li> </ul>	<b>Expresses strong feelings through constructive forms of communication, seeking the assistance of familiar adults when needed</b> <ul style="list-style-type: none"> <li>▶ Insists that another child return a favorite item, but when refused, asks familiar adult for help.</li> <li>▶ Communicates feelings of anger, through words or gestures, to a familiar adult when another child takes the manipulative without asking.</li> <li>▶ Communicates, "I want to sit here," when upset that there are no empty chairs near a friend.</li> <li>▶ Calls out, "Teacher!" when another child takes all the counting bears.</li> </ul>	<b>Uses simple strategies (e.g., leaving a difficult situation, offering an alternative toy to a friend) to regulate own feelings or behaviors</b> <ul style="list-style-type: none"> <li>▶ Offers an object in exchange when another child has a desired object.</li> <li>▶ Communicates, "Okay, but it's my turn when you're done," while waiting for a drink at the water fountain.</li> <li>▶ Leaves the block area during free-choice play, after unsuccessfully attempting to join peers, and then moves to the dramatic play area to join other children playing there.</li> </ul>	<b>Uses socially appropriate strategies (e.g., negotiation, compromise, verbal reminders to self) to regulate own feelings or behaviors</b> <ul style="list-style-type: none"> <li>▶ Communicates, "I want a turn. Can I use the scooter after you go around two times?" after watching another child ride for a while.</li> <li>▶ Communicates, "Don't push!" to another child trying to fit on the rug for story time, and then says, "Here's a spot," and moves over.</li> <li>▶ Communicates to self, in words or signs, that the monsters are just pretend, when attending to a scary story.</li> <li>▶ Uses a communication device to suggest a strategy to share the limited number of popular art materials during a collage project.</li> </ul>	<b>Uses self control strategies to regulate feelings and behaviors in order to prevent self from acting impulsively</b> <ul style="list-style-type: none"> <li>▶ Waits to be acknowledged by the adult before answering a question at circle time.</li> <li>▶ Raises hands, as if to push, pauses, and then communicates, "I don't like it when you push! I was here first," when pushed by peer.</li> <li>▶ Communicates to adult while in the computer center, "Can you tell me when I can play on the computer?" and then goes to the writing center, periodically looking toward the computer and the adult.</li> </ul>	<b>Uses mental strategies (e.g., changing goals, reappraising the situation) to manage emotions, with some success</b> <ul style="list-style-type: none"> <li>▶ Communicates to an adult, "It's sad that my daddy doesn't live with us, but that means I have two birthdays: one with my mommy, and one with my daddy!"</li> <li>▶ Turns to play with another child and later communicates, "I don't like to play with them, they're mean," after being excluded by favorite playmates.</li> <li>▶ Declines playing with the magnets when they become available in order to continue with another activity started while waiting for the magnets.</li> </ul>

- Child is emerging to the next developmental level  
 ○ Unable to rate this measure due to extended absence

**ATL-REG 3: Engagement and Persistence**

Child increasingly persists in understanding or mastering activities, even if they are challenging or difficult

**Mark the latest developmental level the child has mastered:**

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Continues self-selected activities with adult support, even though interest briefly shifts to other activities</b>	<b>Continues self-selected activities on own, seeking adult support to work through challenges</b>	<b>Works through challenges on own while engaged in self-selected activities</b>	<b>Returns to activities, including challenging ones, on multiple occasions to practice a skill or to complete the activity</b>	<b>Pursues simple multi-step activities, following the steps through to completion</b>	<b>Completes complex multi-step activities, making and adjusting plans as needed</b>
<b>Possible Examples</b>					
<ul style="list-style-type: none"> <li>▶ Strings large wooden beads with an adult to make a necklace, briefly watches another child who brings magnets to the table, and then continues stringing beads.</li> <li>▶ Stops looking at books and starts to move away from literacy area, but returns when an adult begins reading a familiar book.</li> <li>▶ Pauses to watch children playing a board game, but returns to drawing when the adult offers markers to finish the drawing.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Continues working on a difficult puzzle, asking an adult for help when needed.</li> <li>▶ Continues looking at a book as an adult encourages other children entering the same area to find a book.</li> <li>▶ Asks adult for headphones while listening to a story on a compact disc when other children begin to play noisily nearby.</li> <li>▶ Starts to get ready to go outside with other children, and asks for adult assistance with zippers when putting on coat.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Continues to build a structure with interlocking blocks even when having difficulty finding the “right” pieces.</li> <li>▶ Glues a variety of materials together to create a three-dimensional collage, trying different ways to make them stick.</li> <li>▶ Repeatedly tries to trace around own hand.</li> <li>▶ Completes an obstacle course using a walker, even on bumpy ground.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Continues to work on spinning a round hoop around own waist over successive days.</li> <li>▶ Revisits a painting started on a previous day to add more detail and color.</li> <li>▶ Writes own name, then writes it more clearly a second time at classroom sign-in table.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Makes a necklace of tiny beads, following a chosen pattern and correcting any errors along the way.</li> <li>▶ Makes a landscape on the sand table, planning roads, bridges and houses.</li> <li>▶ Makes a neighborhood map, including familiar landmarks, such as houses, a park, the library, and the fire station.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Creates a model of a bridge, consulting pictures, finding blocks of the right size, and getting other materials, as needed.</li> <li>▶ Finishes current activity, puts away materials, and goes to the lunch table with no reminders after an adult announces it is time for lunch.</li> <li>▶ Helps to create props and scenery in preparation for reenacting a story to present to the class.</li> </ul>

- Child is emerging to the next developmental level
- Unable to rate this measure due to extended absence

**ATL-REG 4: Shared Use of Space and Materials**

Child develops the capacity to share the use of space and materials with others

**Mark the latest developmental level the child has mastered:**

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Shows awareness that other children might want to use materials, by taking action to control the materials</b>	<b>Maintains control of some preferred materials, allowing others to use the rest, but will need adult support to share preferred materials with other children</b>	<b>Follows expectations or procedures for sharing, most of the time, without adult prompting</b>	<b>Offers to share space or materials with others in the absence of explicit expectations for sharing</b>	<b>Shows concern about everyone being treated fairly in collaborative activities with others</b>	<b>Engages in sustained collaborative activities that involve mutual assistance</b>
<b>Possible Examples</b> <ul style="list-style-type: none"> <li>▶ Keeps all of the crayons nearby even if only using one or two colors.</li> <li>▶ Communicates, "It's mine," when another child reaches for a red counting bear.</li> <li>▶ Places favorite dolls behind back when other children are playing in the doll area.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Holds onto all the pencils while at the writing center, but then gives some to other children, with adult prompting.</li> <li>▶ Keeps favorite crayons nearby, and pushes the basket of other colored crayons to the center of the table.</li> <li>▶ Lets another child take a book from a pile nearby, but holds onto a few favorite books.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates to another child, "That's mine [referring to a carpet square]. Go get one from the pile over there," while getting ready for story time.</li> <li>▶ Gets individual white boards off of the shelf to give to other children, according to the usual classroom practice.</li> <li>▶ Communicates, "It's my turn when you are done," to a child who is using the water fountain.</li> <li>▶ Puts name on waiting list when wanting to have a turn at the computer, after reminder by an adult that there is a waiting list.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Brings a carpet square to another child while getting ready for story time, without being asked.</li> <li>▶ Makes room for another child who wants to join in the writing activity, and then offers a pencil to the child.</li> <li>▶ Uses a communication device to ask another child to join in working with pattern blocks.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Helps a peer find a favorite book in the classroom library.</li> <li>▶ Communicates, "It's not fair!" when a peer is excluded from a game.</li> <li>▶ Passes the dice to another child who has been watching them play a math game.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Works with one or two peers to assemble a puzzle, accepting and offering help to figure out where the pieces go.</li> <li>▶ Communicates, "Look at the picture." to a peer who has trouble identifying a word during shared storybook reading.</li> <li>▶ Shares a magnifying glass with a partner so they both have a chance to see details of the insect wing they are closely looking at together.</li> </ul>

**LLD 4: Reciprocal Communication and Conversation**

Child engages in back-and-forth communication that develops into increasingly extended conversations

**Mark the latest developmental level the child has mastered:**

<b>Building</b>			<b>Integrating</b>		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Engages in brief back-and-forth communication, using short phrases and sentences</b>	<b>Engages in brief conversations with a shared focus</b>	<b>Engages in conversations with a shared focus, contributing clarifying comments or building on the other person's ideas</b>	<b>Engages in extended focused conversations that involve reasoning, predicting, problem solving, or understanding ideas</b>	<b>Builds on both concrete and abstract ideas of others during extended conversations</b>	<b>Seeks additional information during extended conversations in order to understand and build on the ideas of others; and Displays appropriate turn taking and social conventions of conversation</b>
<b>Possible Examples</b>					
<ul style="list-style-type: none"> <li>► Communicates, "I'm the baby," after a peer communicates, "I'm the mommy," while playing house.</li> <li>► Hands play dough to a peer. When the peer takes the play dough and says, "I'm gonna make a dog," responds, "I'm making a snake."</li> <li>► Asks a peer for some pattern blocks to put on the mat in the math center. When the peer replies, "Here" and hands over several blocks, responds, "That's too many," and takes only two pattern blocks from the peer</li> </ul>	<ul style="list-style-type: none"> <li>► Communicates, "That's my family," while sharing a family photo with a peer. When the peer says, "You have two sisters," responds, "I have a big sister, and that's my baby sister."</li> <li>► Responds to an adult's comments about animals that live in the zoo, "I went to the zoo." When an adult replies, "There are lots of animals in the zoo," child says, "I like the alligators best," and continues to converse about other animals at the zoo.</li> <li>► Has a brief conversation with a peer while looking at a caterpillar together. Comments, "That is really hairy." When peer responds, "Yeah, really hairy," child continues, "He has lots of legs, too."</li> </ul>	<ul style="list-style-type: none"> <li>► Has a conversation with a peer about things that they like to do together with their families. Says, "My family goes to the park on Sundays." When peer asks, "Every Sunday?" child responds, "Yeah, but sometimes we go to the park with the swimming pool and sometimes the park with the big playground." Then when peer says, "My grandma takes me to the park," child responds, "My grandma takes me to the store." Conversation continues.</li> <li>► Has a conversation with an adult about the size of dinosaurs. When the adult says that dinosaurs were all different sizes, child responds by naming a big dinosaur, then naming a small dinosaur. Then when the adult says that some dinosaurs had horns, child continues the conversation by saying that some dinosaurs flew like birds.</li> </ul>	<ul style="list-style-type: none"> <li>► Has a conversation with an adult while planting sunflower seeds together, asking how to plant the seeds and making guesses about how big the plants will get and how long it will take before the plants begin to grow.</li> <li>► Has a conversation with a peer before and while building a structure with blocks, including offering ideas on what materials they need and suggesting ways to make sure that the walls keep standing as they are building it.</li> <li>► Has a conversation with an adult about how dinosaurs lived and how people live, providing suggestions about what it would be like if dinosaurs and people lived in the same place.</li> </ul>	<ul style="list-style-type: none"> <li>► Asks a peer, "Would you like to come over to my house to play?" When peer asks, "Today?" child responds, "I'll ask my mom if it's okay to invite a friend over today." Conversation continues.</li> <li>► Adds, "And then you lean forward to go again," during a conversation with a friend about how to ride a skateboard.</li> <li>► Shares that they will need to bring really warm clothes when having a conversation with a peer about going on a camping trip to the North Pole.</li> </ul>	<ul style="list-style-type: none"> <li>► Asks an adult if it is a lie to tell your friend you don't feel well if you don't want to play with them. Listens to adult's ideas about making choices and being truthful about what you want. Responds to adult, "Maybe I will just say that I don't feel like playing."</li> <li>► Asks a peer, "Why don't you like broccoli?" after a peer communicates liking all vegetables except broccoli. After listening to peer's response, adds, "I like broccoli with melted cheese on it. Would you like that?" Waits for peer to respond.</li> <li>► Asks, "Do you think it would be okay if I eat three crackers?" after a peer communicates, "We have to make sure there are enough crackers for everyone." Then communicates, "I think there will be enough," after peer asks, "Are you sure there will be enough if everyone got three crackers?"</li> </ul>
Note: Conversations can include communication using sign language or alternative communication systems.

## LLD 7: Concepts About Print

Child shows an increasing understanding of the conventions and physical organization of print material and that print carries meaning

### Mark the latest developmental level the child has mastered:

Building			Integrating		
Earlier <input type="radio"/>	Middle <input type="radio"/>	Later <input type="radio"/>	Earlier <input type="radio"/>	Middle <input type="radio"/>	Later <input type="radio"/>
<b>Demonstrates awareness of the way books are handled</b>	<b>Demonstrates understanding that print and symbols carry meaning</b>	<b>Demonstrates understanding of how to follow print on a page of text</b>	<b>Demonstrates understanding that print is organized into units, such as letters, sounds, and words</b>	<b>Demonstrates understanding that different types of printed materials are organized to communicate specific ideas or information</b>	<b>Demonstrates understanding that print material is organized into sentences that have first letter capitalization and ending punctuation</b>
<b>Possible Examples</b>					
<ul style="list-style-type: none"> <li>▶ Picks up a book, opens it up, and then turns it right side up.</li> <li>▶ “Reads” to self, attempting to turn pages from front to back.</li> <li>▶ Turns pages of an adapted book using ice pop stick handles.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Points at a stop sign and then communicates, “That means stop,” while looking at pictures on a felt board.</li> <li>▶ Points to the print while pretending to read a page with both print and pictures.</li> <li>▶ Requests that an adult writes words next to a picture the child has drawn.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Moves fingers along print, from one end of the page to another.</li> <li>▶ Points to the first word on a page and then communicates, “Start here.”</li> <li>▶ Points to the words on the front cover of the book or title page and communicates that it is the name of the book.</li> <li>▶ Follows along Braille text with both hands.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, “There are two words on this sign,” while looking at a sign with the words “Writing Center.”</li> <li>▶ Creates a pretend grocery list with letters that look like words, then names the words as grocery items, such as “corn,” “milk,” and “bread.”</li> <li>▶ Communicates that the first letter or sound of a peer’s name is the same as the first letter or sound of child’s own name.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, “I got three birthday cards in the mail and one had a letter from my grandpa.”</li> <li>▶ Communicates, “For the scavenger hunt at my party, let’s leave clues on note cards or sticky notes so my friends know where to go for the next clue.”</li> <li>▶ Looks at the instructions of a board game, hands them to an adult, and asks who is supposed to.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Uses index finger to track the sentences in a story while an adult reads the story, pausing finger at the punctuation at the end of sentences.</li> <li>▶ Communicates, “This is the beginning of the sentence because the first word has a capital letter.”</li> <li>▶ Communicates, “There are three sentences on this page.”</li> </ul>
<p>Note: Children who are familiar with print in languages other than English may demonstrate differences in how they approach print materials. Some languages (e.g., English, Spanish, Tagalog, Vietnamese) are written from left to right within a horizontal line of print and from top to bottom in books and other print media. Other languages (e.g., Arabic, Hebrew) are written from right to left within a horizontal line of print and from top to bottom in books and other print media.</p>					

- ☐ Child is emerging to the next developmental level  
☐ Unable to rate this measure due to extended absence

## LLD 8: Phonological Awareness

Child shows increasing awareness of the sounds (elements) that make up language, including the ability to manipulate them in language

Mark the latest developmental level the child has mastered:

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Engages actively in play with sounds in words or rhymes,</b>  <b>or</b>  <b>Sings simple songs,</b>  <b>or</b>  <b>Repeats simple nursery rhymes</b>  <b>Possible Examples</b>	<b>Demonstrates awareness of larger units of language (e.g., words, syllables)</b>	<b>Blends larger units of language (e.g., compound words and syllables) with or without the support of pictures or objects;</b>  <b>and</b>  <b>Segments larger units of language (e.g., compound words and syllables) with or without the support of pictures or objects</b>	<b>Blends smaller units of language (e.g., onsets and rimes), with or without the support of pictures or objects;</b>  <b>and</b>  <b>Segments smaller units of language (e.g., onsets and rimes), with or without the support of pictures or objects</b>	<b>Matches initial and final sounds of words;</b>  <b>and</b>  <b>Segments and blends initial and final phonemes of words</b>	<b>Isolates the initial sound, middle vowel, and final sound in three-phoneme (consonant-vowel-consonant) words</b>
<ul style="list-style-type: none"> <li>▶ Rhymes children's names with other words during a group sing-along.</li> <li>▶ Sings "Twinkle, Twinkle, Little Star" with a group.</li> <li>▶ Communicates the rhyming word "fall" after an adult says, "Humpty Dumpty sat on a wall. Humpty Dumpty had a great . . ?"</li> <li>▶ Uses signs to participate in a song such as "The Wheels on the Bus."</li> </ul>	<ul style="list-style-type: none"> <li>▶ Drums out each word in "I am Matt" in a name game in the classroom, after an adult has modeled drumming while saying single words.</li> <li>▶ Claps the syllables in familiar words, such as children's names or days of the week with adult and peers.</li> <li>▶ Moves arms each time the word "row" is said in the song "Row, Row, Row Your Boat" with adult and peers.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Answers, "Goldfish," after an adult asks, "If you put together the words 'gold' and 'fish,' what word does that make?"</li> <li>▶ Communicates, "Rain," after an adult communicates, "There are two words in 'raincoat.' What happens when we take away the word 'coat'?" while moving a picture of a coat away from a picture of rain.</li> <li>▶ Communicates, "Zebra," after an adult separates the word into syllables, and says, "Ze—" and "—bra," while looking at a wordless picture book about the zoo.</li> <li>▶ Communicates, "Marker," after an adult communicates, "What happens when I put the two syllables 'mark-' and '-er,' together?"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, "Cup," at the snack table, after an adult says, "I have a c— up. What do I have?"</li> <li>▶ Communicates, "Ice," after an adult asks what word is left when the m— is removed from the word "mice," while playing a word game.</li> <li>▶ Communicates, "d" (letter sound), while looking at a picture of a dog, after an adult says, "What is the first sound you hear when you say 'dog'?" while looking at pictures of dogs together.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Chooses the picture of a mouse after an adult shows her a picture of milk and asks her to find another picture that begins with the same initial sound as milk.</li> <li>▶ Selects a picture of a bat when asked to find the word that ends the same as 'pet'.</li> <li>▶ Points to and says the name of three objects found in the classroom as the teacher sounds out the individual phonemes of each object, (e.g., /c/-/u/-/p/ for cup; e.g., /j/-/u/-/g/ for jug).</li> <li>▶ Communicates, "Ink, pink ink," when adult playing sound game asks, "What little word do you have if I take off the initial sound of /P/ from the word pink?"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Sounds out the word cat, "/c/ /a/ /t/," when adult playing sound game asks, "What are the sounds in 'cat'?"</li> <li>▶ Sings the name "Mary" then sings the name "Gary" by substituting "/G/" for "/M/" to make Gary, when playing the name game.</li> <li>▶ Communicates to a peer, "No, my name is pronounced 'Kim,' not 'Kam.'"</li> </ul>
<p>Note: Children who are deaf and learning American Sign Language will attend to elements of language (hand shapes and movements) in the early levels of learning, but eventually will be able to use finger spelling in relation to learning about sounds. For a child who is hard of hearing, has a cochlear implant, or is using cued speech, the sequence is very similar to that of a hearing child.</p>					

- Child is emerging to the next developmental level  
 ○ Unable to rate this measure due to extended absence

## LLD 9: Letter and Word Knowledge

Child shows increasing awareness of letters in the environment and their relationship to sound, and increasing understanding that letters make up words

Mark the latest developmental level the child has mastered:

Building			Integrating		
Earlier ○	Middle ○	Later ○	Earlier ○	Middle ○	Later ○
<b>Demonstrates awareness of a few letters in the environment</b>	<b>Identifies some letters by name</b>	<b>Identifies ten or more letters (not necessarily at the same time);</b>  <i>and</i> <b>Shows understanding that letters make up words</b>	<b>Identifies most uppercase letters;</b>  <i>and</i> <b>Identifies most lowercase letters;</b>  <i>and</i> <b>Shows understanding that letters correspond to sounds in words</b>	<b>Demonstrates knowledge of all of the letters of the alphabet (upper and lower case) and corresponding sounds for the majority of consonants and many vowels;</b>  <i>and</i> <b>Identifies frequently-used words (e.g., the, of, is, to, you, she, my)</b>	<b>Assembles or splits apart words to make new words;</b>  <i>and</i> <b>Identifies both short vowel sounds and long vowel sounds for most vowels</b>
<b>Possible Examples</b>					
<ul style="list-style-type: none"> <li>▶ Holds up hand or communicates, "Me," when an adult holds up a sign with child's name.</li> <li>▶ Finds the first letter of own name in the environment, such as on labels, artwork, cubbies, or chairs.</li> <li>▶ Communicates, "I found the same letter," when playing a letter matching game in print or Braille.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Names some letters while looking at an alphabet book.</li> <li>▶ Points and names some letters in an alphabet puzzle.</li> <li>▶ Communicates some letter names in Braille.</li> <li>▶ Identifies some letters in Braille.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Names at least ten letters while placing them on a magnet board.</li> <li>▶ Copies the word "cat" and communicates that it says "cat" (letters may not be written accurately).</li> <li>▶ Says, "Fish," after reading the word in Braille.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, "I have two As in my name, one big A and one little a," when reading own name, Anna, on cubby.</li> <li>▶ Names, by sight or touch, most of the letters of the alphabet, when reading an alphabet book.</li> <li>▶ Communicates, "Those both start with B," after hearing the words "ball" and "bat" in a story.</li> <li>▶ Looks at the word "mat" in large print and says "m" (letter sound).</li> </ul>	<ul style="list-style-type: none"> <li>▶ Says every letter while reading an alphabet book, sometimes also sounding out the letters, such as "h,/ha/."</li> <li>▶ Says the sound of each letter, "/c/-/a/-/t/, cat," after identifying the word "cat" by sight or touch.</li> <li>▶ Identifies common words "the" and "like" when looking at a song chart.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Communicates, "There are two ways you can say this letter," while pointing to the lowercase letter "a."</li> <li>▶ Looks at the word "bait," and accurately says "the second vowel means it's not "bat," it's "bait."</li> <li>▶ Communicates, "If you take out the "o" in "come" and put in an "a" it becomes "came."</li> </ul>

## Language and Literacy Development in Spanish (SPAN) Domain

### DRDP-K (2015): A Developmental Continuum for Kindergarten

Additional measures for use in Spanish immersion and Spanish bilingual classrooms.

**SPAN 1: Language Comprehension in Spanish (Receptive)**

Child shows understanding of vocabulary and language structures in Spanish that give coherence and meaning to the child's world

**Mark the latest developmental level the child has mastered:**

Discovering Spanish <input type="radio"/>	Exploring Spanish <input type="radio"/>	Developing Spanish <input type="radio"/>	Building Spanish <input type="radio"/>	Integrating Spanish <input type="radio"/>
<b>Follows simple (one-step) requests in Spanish;</b>  <b>or</b>  <b>Demonstrates understanding of simple questions and comments in Spanish in the context of activities and routines</b>	<b>Follows two to three step instructions in Spanish;</b>  <b>or</b>  <b>Shows understanding of sentences or phrases in Spanish that communicate two or more ideas in the context of activities and routines</b>	<b>Shows understanding of Spanish language that refers to location of people and objects (e.g., here, there, under, over, next to) and sequences of two events in Spanish (e.g., next, now, then) in the context of activities and routines</b>	<b>Shows understanding that Spanish language can be used to describe sequences of events or relationships between events and people's feelings and intentions</b>	<b>Shows understanding that Spanish words and phrases can have different meanings depending on the context</b>
<b>Possible Examples</b> <ul style="list-style-type: none"> <li>▶ Pulls out notebook and pencil box from backpack when teacher says, "Saquen su cuaderno y lápices para empezar a trabajar."</li> <li>▶ Gestures at the picture of the little bear when teacher holds up a Corduroy book and asks, "¿Dónde está el osito?"</li> <li>▶ Leaves desk and moves towards dramatic play area when a peer says, "¡Hora de juego libre!"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Puts a stuffed bunny in the cradle and takes out the baby doll after a peer emphasizes, "Soy un veterinario, no un doctor."</li> <li>▶ Raises hand when teacher asks, "¿Quién quiere pasar al pizarrón para escribir la respuesta?"</li> <li>▶ Passes the soccer ball and runs up the field in response to a peer calling out, "¡Pásame la pelota y vete cerca de la portería!"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Waters potted plant and puts it on the table next to the window after teacher says, "Hoy tenemos que regar nuestras plantas. Rieguen su maceta y pónganla en la mesa junto a la ventana."</li> <li>▶ Puts in order two cards that represent the beginning and end scenes of a story that was read aloud in Spanish.</li> <li>▶ Gets plates and places them on the table; then gets forks and spoons and places them on the table, in response to a peer saying, "Bueno, ya va a estar la comida. ¿Puedes poner los platos y luego los cubiertos en la mesa?"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Describes, "¡Enojados! ¡Asustados!" when teacher asks, "¿Cómo se sienten los osos cuando ven que alguien se comió su comida?" during a discussion about The Three Little Bears.</li> <li>▶ Shares, "Es un lobo malo," when teacher reads a passage where the wolf suggests to Little Red Riding Hood that she take a different path to get to her grandmother's house.</li> <li>▶ Shakes head, "¡No!" when teacher asks, "¿Sabe Caperucita que el lobo está en casa de su abuelita?"</li> </ul>	<ul style="list-style-type: none"> <li>▶ Laughs when teacher reads, "La lista decía, 'Dale la vuelta al perro' y Amelia tomó al perrito con cuidado y le dio la vuelta," from an Amelia Bedelia book.</li> <li>▶ Moves quickly to her cubby, gathers her belongings and joins her mother at the door in response to her mom saying, "¡Salimos volando, que tenemos que ir al dentista!"</li> <li>▶ Chooses an apple, setting aside the radish, from a bowl of fruits and vegetables when the teacher says, "¿Qué podemos usar para la ensalada de frutas?"</li> </ul>

**SPAN 1 (of 4)****Language Comprehension in Spanish (Receptive)****SPAN 1 (of 4)**

**SPAN 2: Language Production in Spanish (Expressive)**

Child uses increasingly complex oral language in Spanish to communicate

**Mark the latest developmental level the child has mastered:**

Discovering Spanish ○	Exploring Spanish ○	Developing Spanish ○	Building Spanish ○	Integrating Spanish ○
<b>Uses short utterances(1) in Spanish to express needs, interests, and experiences or events</b>	<b>Uses extended utterances(1) in Spanish with minimal errors to express needs, interests, and experiences or events</b>	<b>Combines a variety of sentences in Spanish to communicate and to describe a sequence of events or actions</b>	<b>Uses elaborated language(2) in Spanish to explain the needs, feelings, and intentions of people and characters</b>	<b>Uses elaborated language in Spanish to reflect on experiences or stories and communicates causes, consequences, goals, and opinions about them</b>
<b>Possible Examples</b> <ul style="list-style-type: none"> <li>▶ Says, “Muñeca, se rompió,” and brings a doll to the teacher.<sup>3</sup></li> <li>▶ Says to a peer, “Dame ball.”<sup>3</sup></li> <li>▶ Asks, “¿Qué es eso?”</li> <li>▶ Says, “No quiero ir afuera,” when teacher tells children it is time for recess.</li> <li>▶ Asks, “¿Me puedes ayudar?”</li> <li>▶ Says, “Pintó mano,” in response to teacher asking, “¿Qué le pasó al niño?” while reading a story(3).</li> </ul>	<ul style="list-style-type: none"> <li>▶ Says, “Mi mamá me llevó al parque a jugar,” in response to an adult asking, “¿Te acuerdas de lo que hiciste el domingo?”</li> <li>▶ Asks peer, “¿Tienes rojo para pintar la nariz del payaso?”</li> <li>▶ Says, “Se ponío un sombrero muy grande con plumas,” while looking at a book(3).</li> <li>▶ Says, “Me compró una hamburger y jugo con la arena,” in response to an adult asking, “¿Qué hiciste con tu abuelito ayer?”</li> </ul>	<ul style="list-style-type: none"> <li>▶ Says, “El señor estaba pintando y el niño vino y se manchó toda la ropa y las manos,” while turning the pages of a book.</li> <li>▶ Says to a peer, “Me voy a comprar un regalo y después voy al birthday party. Tú te quedas aquí,” during pretend play. Says, “Me puse la ropa y comí cereal y mami me trajo a la escuela.”</li> </ul>	<ul style="list-style-type: none"> <li>▶ Explains, “A ella le duele la cabeza. La mamá la va a venir a buscar.”</li> <li>▶ Says to a peer, “No la empujes. Se va a caer,” while playing outside at recess.</li> <li>▶ Says, “Este perro está comiendo toda la comida que tiene en su plato. Tiene hambre,” while drawing.</li> <li>▶ Says, “Estaba triste porque no podía encontrar su cat,” and gestures at a picture in a storybook.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Says, “Está lloviendo y no vamos a poder jugar afuera. Nos vamos a mojar,” while looking out the window. (Consequence)</li> <li>▶ Says, “Tenemos que lavarnos los dientes para que no se piquen,” in response to adult asking, “¿Por qué tienen que lavarse los dientes?” (Goal and cause)</li> <li>▶ Says, “Una vez vi una película de unos perros que viajaron a la luna. It was funny!” in response to the teacher asking “¿Qué película te gustó más?” (Opinion)</li> </ul>

1. The term “utterance,” as opposed to sentences, more accurately reflects how young children speak. Young children may combine words and produce language with different word combinations, but may not speak using complete sentences.

2. “Elaborated language” refers to the use of more complex syntax, relative clauses, and vocabulary.

3. Grammatical error in the example is common at this level of a child’s Spanish language development.

- **Unable to rate this measure due to extended absence**

**SPAN 2 (of 4)****Language Production in Spanish (Expressive)****SPAN 2 (of 4)**

**SPAN 3: Phonological Awareness in Spanish**

Child increasingly develops knowledge of sounds in Spanish

**Mark the latest developmental level the child has mastered:**

Discovering Spanish <input type="radio"/>	Exploring Spanish <input type="radio"/>	Developing Spanish <input type="radio"/>	Building Spanish <input type="radio"/>	Integrating Spanish <input type="radio"/>
<b>Engages in play with sounds in Spanish words through songs, poems, rhymes, chants, and riddles</b>	<b>Demonstrates awareness of larger units of language in Spanish, such as words in a phrase or a sentence</b>	<b>Segments or blends Spanish words that have at least two consonant-vowel syllables</b>	<b>Segments or blends Spanish words with a variety of syllables (e.g. vowel only, includes a diphthong, consonant-vowel- consonant, etc.)</b>	<b>Demonstrates awareness of the individual sounds within a word in Spanish words that have one or more syllables</b>
<b>Possible Examples</b> <ul style="list-style-type: none"> <li>▶ Sings some words of familiar song: “A la Rueda, Rueda” or “Cucú Cantaba la Rana(1).” (A song that focuses on beginning and ending sounds.)</li> <li>▶ Participates in a chant that emphasizes syllables, “Uno, dos, tres, cho. Uno, dos, tres, co. Uno, dos, tres, la. Uno, dos, tres, te. Chocolate. Chocolate. Bate. Bate, chocolate.”</li> <li>▶ Sings some words of the familiar rhyming song “Naranja Dulce” with a peer.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Claps out the words while communicating, “Yo soy Elena.”</li> <li>▶ Fills in the rhyming word “mañana,” in response to teacher saying, “Sana, sana, colita de rana. Si no sana hoy, sanará...” while putting a bandage on a cut.</li> <li>▶ Communicates, “Ana,” in response to the teacher asking whose name rhymes with “rana” during a rhyming name game.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Taps out syllables of each word while communicating “ga-to, ra-ta, ca-sa,” with matching picture cards.</li> <li>▶ Blends two consonant-vowel syllables to form the words, “vaso, foto, lupa,” in response to the teacher saying the syllables in each word separately, “va-so, fo-to, lu-pa,” during a small group science activity.</li> <li>▶ Claps out syllables for own name and communicates, “Ca-ri-na.” Then counts the total number of syllables, three, during a teacher- guided small group activity where children sort their names by number of syllables.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Claps out and communicates syllables for the words “a-gua” and “e-le-fan-te” with matching picture cards for support.</li> <li>▶ Segments words by clapping syllables and communicating, “a-be-ja, a- ra-ña, u-ña, o-so,” while participating in animal riddles in a small group with the teacher.</li> <li>▶ Blends syllables to make the words “piano,” “torta,” and “fiesta” during a word game with the teacher prompting, “pi-a-no, tor-ta, fi-es-ta.”</li> <li>▶ Claps out and communicates two syllables, “pa- an” for the word “pan(2).”</li> </ul>	<ul style="list-style-type: none"> <li>▶ Identifies groups of objects in the classroom with same initial syllable such as me- for “mesa” and “Melissa” or la- for “lápiz,” “lámpara,” and “Lara” in response to teacher prompt.</li> <li>▶ Finds different objects in a jar with same sounds in the final syllable such as, sa- in “mesa” and “pesa” or pa- in “sopa” and “copa” or initial sound/syllable such as ma- in “mano” and “mapa” or sa- in “sapo” and “zapato.”</li> <li>▶ Recites a poem with peers in a low voice, shouting out words that begin with the same syllable, co- or po-, “Cocodrilo, come poco, muy poquito, poco a poco...” in response to teacher prompt.</li> <li>▶ Sings, “Mónica y Michelle” into a play microphone in response to teacher asking, “¿Puedes cantar los nombres que empiezan con ‘c’ (letter sound)?”</li> </ul>
<p>1. The rhymes and songs listed in the examples are common to Spanish-speaking countries of the Americas; the titles have not been translated into English.</p> <p>2. Child segments a monosyllabic word into two syllables to maintain consonant-vowel, consonant-vowel structure. This error is common for this level of a child’s Spanish language and literacy development.</p>

**SPAN 3 (of 4)****Phonological Awareness in Spanish****SPAN 3 (of 4)**

# SPAN 4: Emergent Writing in Spanish

Child shows increasing ability to write in Spanish using scribbles, symbols, letters, and words to represent meaning

Mark the latest developmental level the child has mastered:

Discovering Spanish ○	Exploring Spanish ○	Developing Spanish ○	Building Spanish ○	Integrating Spanish ○
<b>Makes marks and scribbles using a variety of writing tools (e.g. pencil or marker on paper, chalk on sidewalk, etc.)</b>	<b>Writes marks and letter-like symbols; and Writes own name in Spanish</b>	<b>Writes simple Spanish words using one or more letters or letter-like symbols for each syllable</b>	<b>Writes Spanish words that differ from one another in the use of a single letter or the pattern of letters used for each syllable</b>	<b>Writes simple sentences in Spanish to communicate ideas to others, often with errors</b>
<b>Possible Examples</b>				
<ul style="list-style-type: none"> <li>▶ Imitates writing when signing in at arrival (writing looks like a zigzag line).</li> <li>▶ Makes marks and scribbles when writing a message on a get-well card to one of her peers.</li> <li>▶ Writes own name on his work using shapes and symbols.</li> </ul>	<ul style="list-style-type: none"> <li>▶ Writes marks and letter-like symbols on posts to label paper cups with seeds she just planted; then she “reads” the label on one post communicating “radishes” in English and “rabanitos” in Spanish (refers to same written marks for both Spanish and English).</li> <li>▶ Copies own name across a large piece of paper using a name card as a reference.</li> <li>▶ Writes letter-like symbols that approximate own name on a piece of paper to label a structure she built in the block area.</li> <li>▶ Writes a string of letters and asks an adult to read it, “Maestra, ¿qué dice aquí?”</li> </ul>	<ul style="list-style-type: none"> <li>▶ Uses a combination of letters and letter-like symbols to write a grocery list of a few items during dramatic play and then communicates to peer in Spanish about the items on the list.</li> <li>▶ Writes, “mia” in his journal and reads “mo- li- no” following an activity focusing on the book Rosalía sale de paseo. (The word “molino” appears in the text of the book.)</li> <li>▶ Reads, “cama” while gesturing at “ami” that she wrote on a painting and then communicates in Spanish that it is a picture of her bed. (The letters in “ami” are in María, the child’s name.)</li> <li>▶ Makes a card for her father and includes the word “papá,” and communicates, “Es la pa- de papá.”</li> </ul>	<ul style="list-style-type: none"> <li>▶ Writes, “tigo” in journal, for “trigo,” and communicates, “Esta es la T de Tomás,” after a flannel board activity about</li> <li>▶ La gallinita roja. (“Tri-” in “trigo” is a consonant-consonant-vowel syllable.)</li> <li>▶ Writes, “paan” on a drawing of pan dulce and reads, “pan” after a neighborhood walk to the panadería (“Pan” has only one syllable, consonant-vowel-consonant.)</li> <li>▶ Writes, “amgoso” to label a painting and reads, “El perro y la vaca son amigos.” (“A-” in “amigo” is a syllable that only has a vowel.)</li> </ul>	<ul style="list-style-type: none"> <li>▶ Writes, “oi kome pbaana” to represent “Hoy comí banana.” (Incorporates the “p” [letter sound] from English in Spanish writing for “b” [letter sound]. Uses the letter K instead of C.)</li> <li>▶ Sounds out the first letter of a word and writes the letter L and communicates, “L’ (letter sound) es la ‘l’ (letter sound) de Lucas,” and continues sounding out and writing syllables in the words of a simple sentence. (Note: Lucas is a peer in the class.)</li> <li>▶ Writes, “Vihe en tren a sa dego” and reads, “Viajé en tren a San Diego” during an activity on travel. (Note: Uses the letter H instead of J.)</li> <li>▶ Writes, “Flz cupe años,” draws a birthday cake, and puts the paper in a peer’s cubby after the peer’s birthday celebration in class.</li> </ul>

- Child is emerging to the next developmental level

SPAN 4 (of 4)

Emergent Writing in Spanish

SPAN 4 (of 4)

## Appendix A: Glossary of Terms and Phrases Used in the DRDP-K (2015)

**Assemblage:** An artistic composition made from scraps, junk, or odds and ends.

(California Department of Education. [2011]. California Preschool Curriculum Framework, Vol. 2, p. 286. Sacramento, CA: Author.) Appears in VPA 1: Visual Art

**Investigates/Investigation:** In the process of scientific inquiry, asking a question and conducting systematic observations or simple experiments to find an answer.

(California Department of Education. [2008]. Preschool Learning Foundations, Vol. 3, p. 95. Sacramento, CA: CDE Press.) Appears in: COG:SCI 2: Inquiry Through Observation and Investigation and COG:SCI 3: Documentation and Communication of Inquiry

**Locomotor Skills:** The ability to project the body into or through space.

(California Department of Education. [2010]. California Preschool Learning Foundations, Vol. 2, p. 62. Sacramento, CA: CDE Press.) Appears in: PD 2: Gross Locomotor Movement Skills and PD 3: Gross Motor Manipulative Skills

**Manipulative Skills:** Also known as object-control skills in which the arms, hands, legs, and feet are used to give force to an object (for example, throwing a ball) or to receive and absorb the force from an object (for example, catching a ball).

(California Department of Education. [2010]. California Preschool Learning Foundations, Vol. 2, p. 62. Sacramento, CA: CDE Press.) Appears in PD 3: Gross Motor Manipulative Skills

**Observes/Observation:** Gathering information about objects and events by using the senses of sight, smell, sound, touch, and taste and noticing specific details or phenomena that ordinarily might be overlooked.

(California Department of Education. [2008]. Preschool Learning Foundations, Vol. 3, p. 95. Sacramento, CA: CDE Press.) Appears in: COG:SCI 2: Inquiry Through Observation and Investigation and COG: SCI 3: Documentation and Communication of Inquiry

**Onset:** The first consonant or consonant cluster in a syllable (e.g., the h in the one-syllable word hat; the m and k in the two syllables in the word monkey).

(California Department of Education. [2008]. Preschool Learning Foundations, Vol. 1, p. 89. Sacramento, CA: CDE Press.) Appears in LLD 8: Phonological Awareness

**Rime:** A linguistic term that refers to the portion of a syllable that starts with a vowel. In the word big, the rime unit is /ig/. In the word bring, the rime unit is /ing/.

(California Department of Education [2008]. Preschool Learning Foundations, Vol. 1, p. 89. Sacramento, CA: CDE Press.) Appears in LLD 8: Phonological Awareness

## Appendix B: Comprehensive Definitions of Adaptations to be Used with the DRDP-K (2015)

Adaptations are changes in the environment or differences in observed behavior that allow children Individualized Education Plans (IEPs) to demonstrate their knowledge and skills in their typical environments. Adaptations that are in place for the child during the normal course of the day should also be in place during observations for the DRDP-K (2015). New adaptations should not be introduced solely for the purpose of conducting an assessment. Seven broad categories of adaptations are used with the DRDP-K (2015). This is the same system of adaptations developed for and used in the DRDP access.

### 1. Augmentative or Alternative Communication Systems

Augmentative and alternative communication systems are methods of communication other than speech that allow a child who is unable to use spoken language to communicate with others. An augmentative communication system is used to augment or facilitate the development of speech. An alternative communication system is used in place of speech. Some examples include sign language, picture cards, and electronic communication devices. Assessors should use these systems as part of the observation of a child using language in a natural context. Assessors should not just elicit responses or contrive adult-directed situations.

If American Sign Language is the child's primary language, it is designated as the home/first language, and not an adaptation. If sign language is used as a bridge to learning verbal language, then it is considered an adaptation.

### 2. Alternative Modes for Written Language

Alternative Modes for Written language are methods of producing written language used by a child who cannot see well enough or cannot hold and manipulate a writing utensil well enough to produce written symbols. If a child cannot see or cannot hold a pencil or marker, this adaptation may be used to assist in reading or writing, or emergent reading or writing. Examples of this adaptation include using a Braillewriter, keyboard, or computer.

Naturally, preschool-age children are not proficient at reading and writing. This adaptation allows for children to explore reading and writing and develop their skills in a developmentally appropriate manner.

### 3. Visual Support

Visual supports are adjustments to the environment that facilitate a child's ability to see or to understand the surrounding environment or events. Acceptable visual supports include:

- Adjustments in contrast
- Adjustments in lighting
- Distance from objects
- Increased size of materials
- Verbal description of events

### 4. Assistive Equipment or Devices

Assistive equipment or devices are tools that make it possible or easier for a child to perform a task. The child should be familiar with the use of the device. Any type of adaptive equipment or assistive device that the child needs for mobility, positioning or manipulating objects is acceptable, including:

- Walkers
- Standers

## **5. Functional Positioning**

Functional positioning enables postural support that allows a child to have increased control of his body. It is important that positioning devices are available to the child across settings so that the child may access daily routines and activities and so they may be observed in a variety of activities. Some examples include:

- Standers
- Cube chairs
- Tricycles with seat belts and built-up pedals

## **6. Sensory Support**

Sensory support includes either increasing or decreasing sensory input to facilitate a child's attention and interactions in the environment. Some children may need increased sensory input and others may need decreased input. Some children require different types of sensory support in different activities. Sensory support may include:

- Reducing background noise
- Adjusting tactile stimulation
- Adjusting visual stimulation

## **7. Alternative Response Mode**

Using alternative response modes means recognizing that a child might demonstrate mastery of a skill in a way that differs from a typically developing child. For this adaptation, the environment is not modified as in the other adaptations. Rather, the child's unique yet consistent responses that may indicate the presence of a skill are identified. For example, the child with autism may look out of the corner of his or her eye instead of establishing direct eye contact, or the child with a physical impairment may use atypical movement patterns. The form of a child's response may differ from that of his peers and still be considered to demonstrate mastery of a skill.
