"The(..) Program Guidelines provide information on **how** to provide high quality early care and education, including recommendations for program policies and day to day practices that will improve program services."

Infant Toddler Learning and Development Program Guidelines, p.2

The guidelines address important issues and information about child development and program planning. The three publications take a specific look at a particular age group and the needs of that age group or setting. However they all provide leadership to the early childhood field and ensure that the impact of early care is positive for all children.
